- Dondurma ve ambalajlı dondurulmuş ürünlerin teşhiri için tasarlanmış olan Erguvan modeli, özellikle süpermarket ve hipermarketlerin sıklıkla tercih ettiği bir üründür. Erguvan modeli ile gondol başı modüller kullanarak farklı ada kombinasyonları oluşturabilir, ürünlerinizi panoramik bir görünümle teşhir edebilirsiniz. Zengin renk seçenekleri ve dönüşlerdeki estetik modüler yapısı da mağazanızda farklı bir şıklık sağlar.

- Erguvan model, which has been designed for displaying ice cream and packed frozen products, is the frequently preferred product by supermarkets and hypermarkets especially. Different island combinations can be created with the Erguvan model by using gondola head modules and be able to display your products through a large view. Its rich colour options and its aesthetic modular structure at corners would also provide a different stylishness in your store.
